

Turn Off Internet Browser Pop-Up Blocker

This guide is intended to assist site test coordinators in turning off an Internet browser pop-up blocker before or during a test session.

Internet Explorer

1. From the menu bar select “Tools”, then “Internet Options”
2. Select the *Privacy* tab
3. Uncheck the “Turn on Pop-up Blocker” box
4. Select **[OK]**

Mozilla Firefox

1. From the menu bar select “Tools”, then “Options”
2. Select the *Content* tab
3. Uncheck the “Block pop-up windows” box
4. Select **[OK]**

Google Chrome

1. Access “Settings”
2. Scroll to bottom and select **[Show advanced settings]**
3. In Privacy section, select **[Content setting]** button
4. Scroll to Pop-ups section
5. Select *Allow all sites to show pop-ups* radio button
6. Select **[Done]**
7. Exit the settings page
